- Welcome RI President Barry Rassin and his wife, Esther, to Roswell Rotary on Saturday, Feb. 16 and be ready to be inspired. Roswell Rotary has never hosted a sitting RI President in its 68 years, so ***this is a big deal***. Please let me know if you will help make the Rassins' visit memorable. This meeting is **ALL HANDS ON DECK**, so please register and put it on your calendar! We will be collecting supplies for Puerto Rico seniors, too!

way to get to know your Rotary family. The Roswell Rotary Relays are coming in March and the Blood Drive and Memorial Day are coming up in May. We will likely do a clean-up day at VEO in February. Volunteer! The Directory lists over 70 committees with areas for service. Check it out and reach out to the chair to help. If you don't see your passion, create your own project. Roswell Rotary loves to support our members' passions—just ask Dave McCleary about End Human Trafficking and Debbie Cwalina about Be THE Voice. They are saving lives.

WELL DONE Roswell Rotary! I resolve to finish the 2018-2019 STRONG! I hope you will join me!

This Week's Speaker

Joshua Turknett, M.D., is a board-certified neurologist who leads the firm's neuroscience and learning initiatives. Dr. Turknett has practiced in the Atlanta area for the past twelve years, and is also a clinical researcher, best-selling author, musician, medical editor of the Journal of Evolution and Health, a leading voice in the ancestral health movement, and the founder of Brainjo, a company that uses the science of learning and neuroplasticity to create optimized learning systems.

Dr. Turknett received his Bachelor of Science degree in neuroscience from Wesleyan University and his MD from Emory University. He completed his residency at the University of **Florida Health Science Center.** He is an Atlanta native and is the son of Bob and Lyn Turknett, co-founders of Turknett Leadership Group. He lives in Roswell, Georgia, with his wife and two children.

Dr. Turknett has over two decades of experience in the field of cognitive and behavioral neuroscience, and now brings that expertise to Turknett Leadership Group team to integrate behavioral neuroscience into TLG's existing services and to develop neuroscience-driven learning solutions based on the Brainjo Method. Dr. Turknett will lead the incorporation of the neuroscience of learning into coaching programs, assessment, and

culture change processes, and will help assure that leadership development programs, whether individual, classroom-based, or web-based, result in “learning that sticks.”

He is also partnering with TLG to create the Turknett Center for Elite Cognition, a new initiative to develop comprehensive programs for optimizing cognitive performance, creativity, and idea generation at both the individual and organizational level. As artificial intelligence becomes more important and pervasive, companies that thrive will be those that maximize their collective human intelligence and uniquely human capabilities.

Homelessness in Roswell

National Homeless Count - Point in

Time - North Fulton

The Point In Time (PIT) Homeless Count conducted by The Fulton County Continuum of Care is crucial for tracking the success of local efforts to end homelessness across the nation and for planning future efforts and will be conducted on January 17, 2019.

The PIT Count gives the County and its partner agencies valuable information on the homeless population that makes it possible to strategically target resources for optimal results. We will be surveying the unsheltered homeless who are sleeping in outdoor locations such as sidewalks, parks, encampments and under bridges. The surveys will provide demographic information on each homeless individual, give insight to their homeless history, and assess individual needs that will enable the Continuum to effectively plan housing and service interventions to prevent and end homelessness in Fulton County.

If you want to participate in the Homeless Count, please sign-up online CLICK HERE and let Mike Nielsen know if you will attend.
