Roswell High School unveils grant purchases

Oct 8, 2018

ROSWELL, Ga. — In July, the Roswell and North Fulton Rotaries awarded a \$10,000 grant for construction equipment to the Roswell High School Career and Technical Education Program.

The various tools include circular saws, drill bits, orbital sanders, reciprocating saws, anvils, trowels, routers and battery chargers.

Roswell Rotary is committed to providing the physical tools and social skills RHS students need to be workforce-ready and to connecting students to industry professionals for professional development and career opportunities.
